2017 NEVADA TROPHY FISH PROGRAM

Welcome to the Nevada Department of Wildlife's Trophy Fish Program that began in 1968. This booklet recognizes the talents, or luck, of anglers for catching notable-sized fish from many of the over 800 waterbodies found around the state. This program allows anglers to catch 29 different fish species, each having a designated minimum weight for entry. To help us out, please include on the entry form the "specific location" where your fish was caught. Most importantly, add the "mountain range" for stream caught fish, because there are multiple streams in the state with the same name. Additionally, it is important to include a nice photograph for us to make a positive identification. Several species look very similar, so holding the fish broadside with the mouth closed for example can be critical. More than one photo taken at different angles may also help. It is essential that if you believe you caught a state record fish, have it weighed on a scale that is "certified" and have an NDOW employee witness it.

In 2017, there were 109 Trophy Fish Entries submitted. Adam Garcia, by far, submitted the most entries meeting the weight requirements, 12 cutthroat trout caught from Pyramid Lake ranging from 10 to 24 pounds and a Sacramento Perch from Pyramid Lake weighing 2 pounds. Nine previous water records were broke, but a black crappie from Weber Reservoir entered by Lake A. Pressey proved to be the most significant catch of year. This state record black crappie weighed 3 pounds 5 ounces, beating the previous water record by 5 ounces and the state record from Lake Mead by 3 ounces set back in 1976.

Fish from an additional 57 entries established brand new water records. Most entries did not meet the minimum weight requirement, but were from water bodies that never before had an entry. Bill Hammons and Steve MacMillan spent much of the year fishing the many small streams around the state and acquired 28 and 17, respectively, water records. It is encouraging to see anglers visiting rarely fished streams and enjoying the remoteness and beauty the state has to offer.

Finally, two anglers completed the Native Fish Slam in 2017 by catching the six native sport fish species found in Nevada. Diane MacMillan, wife of Steve MacMillan who was the first to have completed the Native Fish Slam, persevered and caught her final fish this year after beginning the Slam 5 years ago. Mace Bannon remained diligent and completed the slam within a couple of months during the summer of 2017. Congratulations to both these anglers!

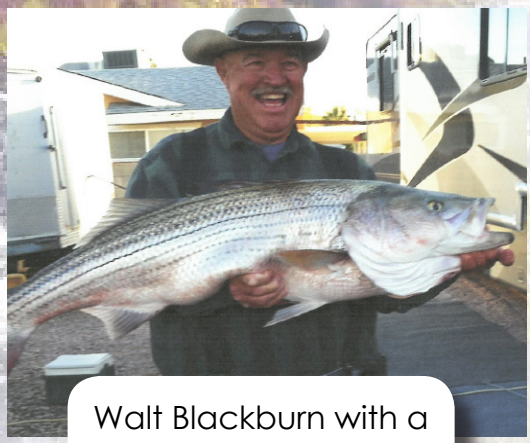
The following pages describe current and historical trophy fish catches from Nevada's waters. We hope the great success that anglers found last year will excite you to head out and enjoy the great fishing Nevada has to offer.

Record Fish of Nevada
&
Largest Fish of Year
2017

Randy Osborn with a Smallmouth Bass From Topaz Lake weighing 4 lbs. 5oz.

A 15 Lb. 8 oz. Carp from Truckee Rive caught by Louis Varela

Boynton Slough Carp caught by Jason Lighthall weighing 22 lbs. 3 oz.



Walt Blackburn with a 31 Lb. 8 oz. Striped Bass from Lake Mead

Whitefish, Mountain	3	9	18.5	Truckee River	Kirill Solovykh	9/11/2011	5 lbs 8 oz
Wiper, White x Striped Bass	25	9	33	Lahontan Reservoir	Adam Truran	6/6/2009	27 lbs 5 oz

NOTE: These records are officially recognized by the Nevada Department of Wildlife as state records established from the year 1968, the first year of the Nevada Trophy Fish Program through December 2016. These records include fish taken in interstate waters including Lake Tahoe, Topaz Lake, Lake Mead, Lake Mohave and the Colorado River. It is recognized that some species of fish of larger size have been caught from Nevada waters prior to 1968.

World Record data was obtained from the International Game Fish Association's World Record Game Fishes 2017 edition.

***NOTE: The recognized world record Cutthroat trout of 41 pounds was caught from Pyramid Lake in 1925.**
