Agree Disagree No Recommendation

Alternative Recommendation:

Unit Group 222b-231b: LCABMW recommends the quota be placed at 5 instead of 10. This depredation hunt has become a "trophy hunt" because of timing, quality of bulls entering the area that are not resident bulls doing crop damage, etc...The last several years of this hunt has reduced overall quality in the area. Local property issues will still be addressed because on the cow hunts coinciding with the depredation bull hunt.

8. Resident Elk - Antlered - Any Legal Weapon Hunt 4151

Agree Disagree No Recommendation

Alternative Recommendation:

Unit Group 231, 241, 242: LCABMW recommends quota of 70 instead of 79. Currently this unit success and hunt quality are high. The unit is congested in terms of hunter pressure. Keeping tag numbers somewhat limited maintains the quality of the hunt and harvest will be equal to that of a higher quota.
