The CAB had covered this topic at the November 29th, 2010 meeting. Their comments remain the same and are as follows:

Mr. Bliss recommended that, whatever action is taken with the wolf status, the action be well thought through and that Nevada is protected at the highest level to ensure wolves do not get established here in Nevada. Mr. Evans commented that it is a difficult issue considering the uncertainty of the direction that the Federal Government will take with the wolves. Mr. Bliss and Mr. Evans agreed that they do not want wolves in Nevada but are unsure of what to recommend.
