

To all Members of the Commission.

The Washoe County Advisory Board would like to present this input for your consideration in the upcoming election of Chairman and Vice Chairman for the Board of Commissioners.

We ask that all board members read all letters submitted by the CAB's, all Sportsman and Special Interest groups and the public to hear the voice of the people.

We ask you to consider what are the most important traits needed to be an effective leader.

We ask you to select a leader that is open, willing to listen to the CAB's, Sportsman's and Special Interest Groups as well as the public.

This board needs a Chairman that is honest and ethical and will treat all people with dignity, professionalism and respect throughout their term.

The future of this commission lies in each and every one of your hands.

Please elect a Chairman that will bring dignity and teamwork back to all involved so that we may work together for the betterment of Nevada, our wildlife and our people.

Thank you for your time and consideration in this very important matter.

Respectfully,

The Washoe County Advisory Board
Rick Smith, Chairman
