

**NEVADA DEPARTMENT OF WILDLIFE  
SAGE-GROUSE HUNT QUESTIONNAIRE**

Please fill out the survey below and place one wing (left or right) from each harvested sage-grouse into this envelope. A hunting party may place multiple wings from the same area of harvest into one envelope. Please close the envelope using the clasp and deposit into the wing barrel. Data from this survey and analysis of the wings will help the Nevada Department of Wildlife determine sage-grouse habitat utilization, hunter success, and age and sex composition. Thank you for taking the time to fill out the survey and being a part of wildlife management in Nevada.

**Number of hunters in your party?** \_\_\_\_\_

**How many days did you hunt?** \_\_\_\_\_

**Number of sage-grouse harvested?** \_\_\_\_\_

**Number of sage-grouse observed?** \_\_\_\_\_

**Number of banded birds harvested?** \_\_\_\_\_

**Band #(s):** \_\_\_\_\_

**Please indicate the hunt unit and describe the geographic location of harvest (i.e. spring name, valley, drainage, etc.). If banded birds were taken, please indicate those locations separately:**
