Other comments, including a dissenting viewpoint (different than the majority) or issue brought up during discussion: **The LCABMW supports the season dates for the mourning and white-winged dove.**

The LCABMW recommends the following season dates for bobcat and grey fox: 11-19- through 2-19. Basically, this is still a 3-month season (moderate increase from year's past- with moderate decrease from previous 4-month seasons). There are many factors which make it difficult to have a statewide season that makes all parties happy while maintaining healthy game populations. The LCABMW does feel Lincoln County Bobcat populations are "down." The LCABMW feels that it should be shortened on the "back-end" (February) as opposed to the "front-end" (November). Population monitoring should continue and adjustments made as needed. _
