We voted for option one knowing there could be abuse by some but option one being the one less abused. If an ADA sportsmen received a special permit to carry with his license, law enforcement would have an easier time checking those with scopes. Option three four defeats the purpose of having a primitive weapon muzzleloader hunt.

We found it disheartening that the Heritage Committee would approve funding for projects that after review by NDOW were found did not meet the base criteria for the Heritage Fund requirements. Also that the committee approved projects that did not maximize matching funds. Even worse is that the commission would follow the Heritage Committee recommendations that were wrong.
