

Mule Deer Restoration Committee Topics

Wildfire

Agency Bureaucracy- how to work with them to enhance mule deer populations

Habitat intrusion

Development – urbanization

Development – Mining

Development – Energy

Wilderness – lack of habitat disturbance, access

Noxious Weeds

Pinon Juniper encroachment

Road Crossings

Shed Antler Hunting

Forage Decadency

Mineral Supplementation

Carrying capacity

Doe Hunting

Feral Horses

Predation

Compatibility with Livestock

Rotational grazing

Competition Deer vs Elk

Genetics

Migration loss

Population threshold for reduced genetic health

Observational Biology vs Biology of game production

NDOW structural failings –

Helicopter stressing of game

Weather / Rainfall
