

Per my conversation with Assemblyman Claborn on 3:30pm on April 2nd, he has submitted an amendment to legal to amend the mock-up of AB 362, #3 to add read something like this:

*Any program developed or wildlife management activity or research conducted pursuant to this section must be approved **by the Director and the Wildlife Commission.***

This amendment will not be printed until Monday, however, he would like the groups that participate in the Special Commission meeting to consider that amendment when making their recommendations, as he sees this is addressing both sides' concerns.
