

Per my conversation with Assemblyman Claborn on 3:30pm on April 2<sup>nd</sup>, he has submitted an amendment to legal to amend the mock-up of AB 516, the last part of #4b to read something like this:

***upon approval by the Director and the Wildlife Commission.***

This amendment will not be printed until Monday, however, he would like the groups that participate in the Special Commission meeting to consider that amendment when making their recommendations, as he sees this is addressing both sides' concerns.
