Dear Chairman Lent and Members of the Commission,

Thank you for the opportunity to provide input on the apprentice hunting program, scheduled to be considered by the commission. The Nevada Conservation League in concert with other conservation groups worked for the passage of this legislation during the 2009 legislative session.

In our view, the apprentice hunting program is a tool that can be used to try and reverse the recent trend of lower percentages of our population that are enjoying the rich outdoor opportunities that Nevada offers. As you all know, sportsmen are some of the strongest advocates for the conservation of our natural resources and this program will only help us create more conservationists. We urge the commission to support this program.

Thank you for your time today and please let me know if you have any questions.

Sincerely,

Kyle Davis
