Tag Allocation and Application Topics – Agenda

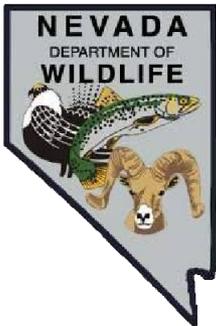

- In this presentation the TAAHC is addressing the last remaining “Application Hunt” topics from the Topic List
- These topics presented in this presentation were first reviewed at the February 8, 2008 TAAHC meeting as an “informational” agenda item. The committee made only “preliminary positions” at that time. Final motions were made at the March 21, 2008 meeting and are reflected
- This PowerPoint presentation is the third in a series of three presentations created by the TAAHC to memorialize committee research and actions taken related to “Application Hunt” topics. Future efforts of the TAAHC will soon transitioning to “**Tag Allocation**” topics and will be addressed in a follow-on series of PowerPoint presentations

Tag Allocation & Application Hunt Committee

Agenda - Remaining Application Hunt Topics

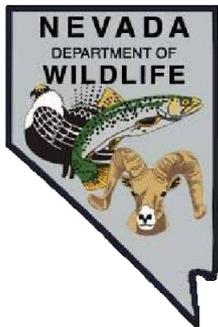

A.2.1	Raise application fees	A.9.3.3	Hold youth draw earlier like NR guided/main draw
A.2.2	Raise PIW/Bonus Point fees	A.9.4.1	Expand goat choices beyond one choice
A.3.4	Transfer adult tag to a youth	A.9.6	Mountain Lion with other tag in draw
A.3.6	Allow youth to fill general tag holder's tag	A.9.11	Draw results announced sooner
A.3.7	Youth/adult draw same tag	A.9.12	Draw NR tags then allocate remaining tags to res quotas
A.4.1	Youth/adult mixed party	A.9.12.1	Remaining Cow Elk tag placed in youth draw
A.4.1.1	Mixed party Apps for Elk & Antelope	A.9.12.2	Remaining NR Cow Elk tags placed in res quotas
A.9.2	Hold the PIW draw first	A.9.12.3	Non Resident and Resident tags placed in general pool
A.9.3	Draw order - run all 1 st choices, then all 2 nd choices, etc	A.9.18	Special draw for military

Tag Allocation and Application Topics – Application Fees

A.2.1 Raise Application Fees

- Historically the contract has had a set amount identified for programming changes that may arise from Commission action during the duration of the contract, so raising the fee isn't necessary
- Contract has contingency fund which is 10% of the contract to cover contingencies (increase in postage costs, #s applications, etc.)

Tag Allocation & Application Hunt Committee

Tag Allocation and Application Topics – Tags Available To Youth

Why did 500+ youth not draw youth tags in the main draw?

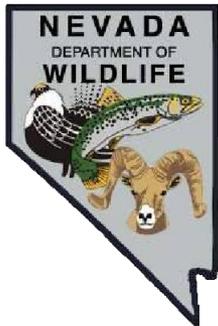

- There were 3,000 tags allocated in the youth quota
- There were 3,087 applications for youth tags
- There were 454 tags remaining after the first draw
- Youth are selective in where they are applying

Tag Allocation & Application Hunt Committee

Tag Allocation and Application Topics – Transfer Tag to Youth

Issues regarding transfer of tags

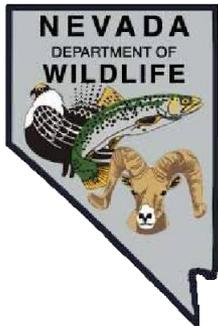

- NRS 502.140 would need to be changed. It is currently unlawful to transfer a tag to another or use a tag issued to another person
- Would the youth need to be related? If so to what extent? (consanguinity)
- What if the youth is not currently in the application file? An application would need to be added and the nonrefundable fees collected
- "eBay" syndrome – offers of transfers might be made on "eBay"

Tag Allocation and Application Topics – Youth and Adult Hunt

A.3.7 Youth and Adult Draw Same Tag

Youth and Adult Hunt – Concepts

- Desire for a “mixed” youth and adult hunt to coordinate schedules
- Some desire for a youth to obtain a tag “no matter what”
- In effect, something similar has been done with the “mixed residency” party hunt for deer
- Currently, youth and adults can draw the same tag if they apply as a party for 1331, 1341, 1371, 1181

Tag Allocation and Application Topics – Youth and Adult Hunt

A.4.1 Youth / Adult Mixed Party

Statistics

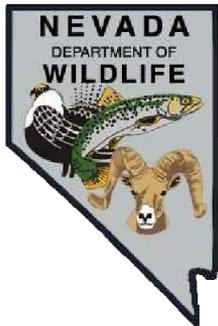

- 3,287 “Youth” applied in the 2007 Big Game Draw Deer Hunt
 - “Youth” defined as “born on after 8/1/1991”
 - Doesn’t include rejected applications
 - Includes 1331, 1341, 1371, 1181 and 1107 Hunts
 - 2,690 of these “Youth” applied in the 1107 “Youth” Hunt
 - 597 of these “Youth” applied in the 1331, 1341 1371 or 1181 Hunts
 - 53 of these 3,287 “Youth” applied for bonus points, 48 in Buck Deer Hunts and 5 in the “Youth” hunt

Tag Allocation & Application Hunt Committee

Tag Allocation and Application Topics – Youth and Adult Hunt

Issues

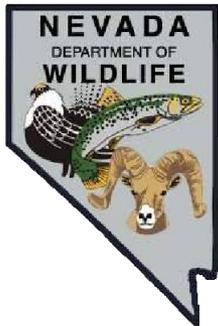

- **Should a Mixed Party Youth/Adult hunt remain true to the original “all go” or “none go” concept of the party hunt? Or should tags be issued to members of the party if sufficient for either all adult or all youth?**
- **Youth may benefit unfairly in the youth hunt if the “all go” or “none go” concept is abandoned. Namely the adult members of the parties may not go but may contribute the benefit of their bonus points to the likelihood of drawing.**
- **If the “all go” or “none go” concept is retained it may leave more junior tags leftover.**

Tag Allocation & Application Hunt Committee

Tag Allocation and Application Topics – Youth and Adult Hunt

Youth and Adult Hunt – Programming

- Could youth use “adult quota”? Or would all youth be tied to youth quota only?
- Need to add a bucket for youth quota on the “adult hunts”
- Need to modify draw process to use other quota buckets
- Need to convert existing Bonus Points for use in hunt
- Need to modify tag printing process for Hunt Descriptions
- Approximate cost (depending on ultimate path chosen): \$12,000

Tag Allocation and Application Topics – Hold PIW Draw First

A.9.2 Hold the PIW Draw First

Administrative issues

- Petition accepted by the commission for Silver State Tag--the petition requests the draw for such tags to be before the main draw
- Currently, PIW fee is charged or deducted from refund after the draw and only to those applicants that marked their desire to participate in PIW but were unsuccessful. In holding the PIW first, all applicants for PIW would be charged the PIW fee, not just the unsuccessful. This would make the fee in addition to the nonrefundable and/or tag fees that would be submitted
- NAC 501.427- 502.429 would need to be amended
- Programming will be involved.

Tag Allocation and Application Topics – Allocate Tags first by looking at all 1st Choices, then 2nd Choices, etc.

Administrative Issues

- Draw process would be lengthened significantly as many applications would have to be drawn more than once
- Having multiple hunter choices would become meaningless for many hunts. By the time the draw would get to someone's third choice it most likely have been issued in the first choice round of the draw

Tag Allocation and Application Topics – Hold Youth Draw
Earlier – Like NR Guided Draw

A.9.3.3 Hold Youth Draw Earlier like NR Guided/Main Draw Now

Administrative issues

- Mostly an educational issue
- Back in 1990/1991 the Department went to the “Quick Draw process”, drawing as many hunts as possible in a draw to minimize administrative costs (i.e., postage, printing brochures, envelopes) and to simplify the application process for the public. It also reduced the number of deadlines for the public to be concerned about
- Would change the operational cost structure through loss of economies of scale

Tag Allocation and Application Topics – Earlier Results

A.9.11 Earlier Draw Results

Background

- There is a desire to have earlier results than the current third week of June posting date
- The draw is typically run in late May or early June
- There are a series of processes that are serial in nature and the draw results (including eMails) depend on this sequence. The HTML results pages on the web site are dependent on less steps
- Results eMails are ready to send BEFORE the snail mail results letters are sent, but are held until Letters are dropped in the mail
- Phone calls and questions start AS SOON as results are made available. Operators NEED the data to be able to answer these questions

Tag Allocation & Application Hunt Committee

Tag Allocation and Application Topics – Earlier Results

Earlier Draw Results – Current Steps

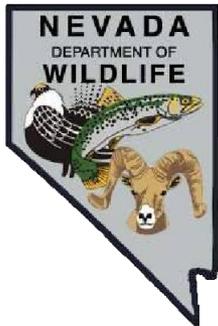

- Draw – Run on a standalone machine from a copy of the SQL data base -- Typically 3 to 4 hours
- Backup Local SQL data base for relocation to the SQL server – Typically 1 hour
- Copy Local backup to DVD. Typically 1 hour
- Restore Local backup to the SQL server – Typically 1 hour
- Update Generic Hunt #'s with either successful Hunt # or Hunt # of first choice for unsuccessful Applications – Typically 1.5 hours
- Create Tag and License Refund Records – Typically 2 hours

Tag Allocation and Application Topics – Draw NR tags first then allocate remaining tags to other quotas

Remaining Tags

- In 2006 and 2007 remaining tags were available to both residents and nonresidents if there was a corresponding nonresident hunt
- This eligibility rule was established in the seasons and bag eligibility and deadline information
- 2007 there were 1136 tags remaining for the second draw
- NR quota remaining that became available to both Res. and NR:
 - Longbow Antelope - 4 Tags
 - Longbow Deer- 7 tags
- Res. quota remaining that became available to both Res and NR:
 - Longbow Deer – 408 Tags
 - Resident Antlerless Archery Elk – stayed Resident – 2 tags
 - Resident Junior Tags – stayed Resident – 454 tags
 - Resident Antlerless Deer – stayed Resident – 233- tags
 - Resident Depredation Deer – stayed Resident – 28 tags

Tag Allocation and Application Topics – Remaining Cow Elk
Tags for Youth

A.9.12.1 Remaining Cow Elk Tags Placed in a Youth Draw

Administrative Issues

- Commission would have to establish a youth hunt for cow elk
- Commission would have to establish eligibility issues in season and bags information
- Would they only be available in a remaining tag situation? Or would cow elk youth tags be available for the main draw also and these would be added to any remaining from that draw?

Tag Allocation and Application Topics – Special Draw for
Military

A.9.18 Special Draw For Military Administrative Issues

- Would they have their own quota or are their tags deducted from the already limited number of tags?
- Who would be eligible, definition of various military statuses, limitation (i.e., Active Duty, Reserve, National Guard; mobilized or inactive?)
- Military status is not a permanent status—yearly proof to qualify
- What would be acceptable proof? ID card(s), activation orders, etc
- Apply on paper only? What species?
- '05 statistics used in the '07 Legislature on a BDR for military license
 - NV Residents on active duty in the Armed Forces - 14,323
 - Approximate # NV National Guard Under 10 U.S.C. – 300
