2014 Harvested Mule Deer Ages from Usable Teeth Submitted to Matson's Laboratory

If a hunter's name is not listed but he or she sent a tooth envelope in, it is because: 1) the envelope was empty, 2) tooth sample not in prelabeled tooth envelope and no hunter name provided, 3) the tooth root was damaged or cut off preventing the laboratory from aging the tooth, or 4) tooth envelope was received after January 1, 2015 and will not be aged until summer 2015.
