MEMORANDUM

July 29, 2016

To: Nevada Board of Wildlife Commissioners, County Advisory Boards to Manage Wildlife, and Interested Publics

From: Brian Wakeling, Administrator, Game Division 

Title: Nevada Department of Wildlife License Simplification Strategy Update – Informational

Description: The Department has analyzed financial data regarding license structure and proposed a revenue neutral pricing structure that has been shared with the public at five Community Open Houses. The Department will provide an overview of the information obtained to date.

Presenter: Game Division Administrator Brian F. Wakeling

Agenda No: 19

Summary:

The Department initiated License Structure Simplification about 11 months ago, and public input and involvement have remained forefront in this effort throughout. The Department has involved an outside consultant to ensure thorough and complete evaluation of the structures. Recently, the Department has completed its third effort at public input by hosting Community Open Houses in Elko, Ely, Fallon, Reno, and Las Vegas. The CABs and the Commission will be briefed on the development of the simplified license structure, the considerations for pricing, and the feedback from the public that attended these open houses.
