Dear Tony,

The Utah Division of Wildlife Resources has enjoyed working with your agency in the many accomplishments we have collectively made in bighorn sheep management. We hope to continue our working relationship in maintaining sustainable desert bighorn sheep populations throughout their range.

In this regard, our agency respectfully requests desert bighorn sheep from the State of Nevada in order to continue wild sheep restoration efforts in suitable habitat in Utah. Many of Utah's desert bighorn sheep herds have experienced substantial success as a result of the cooperative efforts between our two states.

We are indebted to the generosity of the sportsmen in the state of Nevada and to your agency for a great deal of the success we have had in this high profile program. We look forward to working with you in the future.

Sincerely,

Gregory Sheehan
Director
Utah Division of Wildlife Resources
