AN ACT relating to wildlife; requiring the Board of Wildlife Commissioners to establish policies for the conservation of certain wildlife; revising the authorized uses of the fees for the processing of an application for a game tag; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Under existing law, the Board of Wildlife Commissioners is required, after first considering the recommendations of the Department of Wildlife, the county advisory boards to manage wildlife and other persons, to establish policies for the management of big and small game mammals, upland and migratory game birds, fur-bearing mammals, game fish, and protected and unprotected mammals, birds, fish, reptiles and amphibians. (NRS 501.181) Section 1 of this bill requires those policies to also include the conservation of those mammals, birds, fish, reptiles and amphibians.

Existing law requires a person applying for a game tag to pay an additional fee of $3 for processing the application. The money collected from those fees is required to be deposited in the Wildlife Account in the State General Fund and used by the Department of Wildlife for costs related to: (1) developing and implementing an annual program for the management and control of predatory wildlife; (2) wildlife management activities relating to the protection of nonpredatory game animals and sensitive wildlife species; and (3) conducting research necessary to determine successful techniques for managing and controlling predatory wildlife. (NRS 502.253) Section 3 of this bill expands the purposes for which the proceeds from those fees are required to be used by adding programs for the management and enhancement of game mammals, adding wildlife management activities related to wildlife habitat and authorizing obtaining matching money from the Federal Government which is available for use for those programs and activities. Section 3 also requires the Department of Wildlife to submit a report, on or before August 31 of each even-numbered year, to the Director of the Legislative Counsel Bureau for transmittal to the Legislature setting forth the expenditures.
for the programs and activities carried out using the proceeds from those fees.  
Section 4 of this bill specifies that the proceeds from those fees which are  
deposited for credit to the Wildlife Account on or after July 1, 2017, are only  
authorized to be used for the new purposes.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN  
SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

AN ACT relating to wildlife; amending the definition of “trap” to exclude certain devices; requiring the Department of Wildlife to develop standard language for certain signs required to be posted in areas in which trapping may occur; requiring, with limited exception, each trap, snare or similar device used by a person in the taking of wild animals which is not registered with the Department, to bear the name and address of the owner; revising the fee to register a trap, snare or similar device; deleting provisions which declare that any information in the possession of the Department concerning the registration of a trap, snare or similar device is confidential; authorizing a person to remove or disturb a trap, snare or similar device under certain circumstances; requiring a person who takes or causes to be taken any wild mammals by means of a trap, snare or similar device to visit or cause to be visited the trap, snare or similar device at least once every 96 hours; revoking the authority of the Board of Wildlife Commissioners to establish regulations setting forth the frequency a trap, snare or similar device must be visited; and providing other matters properly relating thereto.
Legislative Counsel’s Digest:

Existing law defines the term “trap” for purposes of title 45 of NRS governing wildlife to mean a device that is designed, built or made to close upon or hold fast any portion of an animal. (NRS 501.089) Section 1 of this bill specifies that the term does not include: (1) any cage or box trap, net or suitcase-type live beaver trap; or (2) any device that is designed, built or made to close upon or hold fast certain vertebrate pests, such as mice and rats.

Existing law defines the terms “to trap,” “trapping” and “trapped” for purposes of title 45 of NRS governing wildlife to mean to set or operate any device, mechanism or contraption that is designed, built or made to close upon or hold fast any wildlife and every act of assistance to any person in so doing. (NRS 501.090)

Existing law defines the term “wildlife” to mean any wild mammal, wild bird, fish, reptile, amphibian, mollusk or crustacean found naturally in a wild state, whether indigenous to Nevada or not and whether raised in captivity or not. (NRS 501.097)

Section 2 of this bill amends the definition of the words “to trap,” “trapping” and “trapped” to delete the term “wildlife” and substitute the term “animal.”

Section 3 of this bill requires the Department of Wildlife to develop standard language for inclusion in any sign that is used to warn a person that trapping may occur in any area of this State. Section 3 also requires each state agency which manages any public land in this State in which trapping may occur to ensure that each sign: (1) includes any standard language developed by the Department; and (2) is posted in certain locations specified by the Department.

Existing law authorizes each trap, snare or similar device used by a person in the taking of wild mammals to be registered with the Department of Wildlife before it is used. Existing law also requires each registered trap, snare or similar device to bear a number which is assigned by the Department. A registration fee of $10 for each registrant is payable only once by each person who registers a trap, snare or similar device. Any information in the possession of the Department concerning the registration of a trap, snare or similar device is confidential. (NRS 503.452) Section 5 of this bill requires, with limited exception, that a trap, snare or similar device used by a person in the taking of wild mammals that is not registered with the Department must bear the name and address of the person who owns the trap, snare or similar device. Section 5 also: (1) requires the number assigned by the Department for a registered trap, snare or similar device or the name and address of the person who owns an unregistered trap, snare or similar device to be clearly stamped on the trap, snare or similar device or on a metal tag which is attached to the trap, snare or similar device; and (2) deletes the provisions of existing law which declare that any information in the possession of the Department concerning the registration of a trap, snare or similar device is confidential. Section 5 further revises the fee to register a trap, snare or similar device from $10 per person who registers a trap to $5 per trap, snare or similar device. Section 8 of this bill makes a conforming change.

Existing law makes it unlawful to remove or disturb the trap, snare or similar device of a holder of a trapping license while the trap, snare or similar device is being legally used by the holder. (NRS 503.454) Section 6 of this bill authorizes a person to: (1) remove or disturb the trap, snare or similar device if it creates an immediate risk of physical injury or death to a person or animal; and (2) release any person or animal accompanying the person from a trap, snare or similar device in which the person or animal is caught. Section 4 of this bill makes a conforming change.

Existing law requires a person who takes or causes to be taken any wild mammals by means of a trap, snare or similar device which does not, or is not designed to, cause immediate death to the mammals to visit the trap, snare or similar device at a frequency specified in regulations adopted by the Board of Wildlife Commissioners. (NRS 503.570) Section 7 of this bill requires a person...
who takes or causes to be taken any wild mammals by means of any trap, snare or
similar device, regardless of whether the trap, snare or similar device causes
immediate death to the mammals, to visit the trap, snare or similar device at least
once every 96 hours. Section 7 also eliminates the authority of the Board of
Wildlife Commissioners to establish regulations setting forth the frequency at
which a person must visit a trap, snare or similar device. Section 8.5 of this bill
provides that until the Legislature acts to change the frequency by which a person
must visit a trap, snare or similar device, the regulation established by the Board of
Wildlife Commissioners as it exists on July 1, 2017, shall remain in effect.
