**7. Commission General Regulation 457 LCB File No. T003-15 (Temporary LCB File) – Awards, Issuance, and Use of Tags – Proposed Changes to NAC 502.42279 – (For Possible Action)**

The Commission will hear a temporary regulation amending license issuance and use clarification for elk incentive tags. Elk incentive tags were designed to be issued in association with "bull" hunts and seasons. Subsequent to initial NRS and NAC adoption, "spike" hunts have been developed, and "antlered" tags do not clearly denote the appropriate quota or season for which the incentive tags are intended. The amended formula will account for the harvest of "spike" elk, but identify seasons for incentive tag use.

The Nevada Board of Wildlife Commissioners conducted a workshop on March 20, 2015. The Commission discussed the language with changes to Section 1, rewriting the formula to read as follows:  $(NP \div NE) \times (DP \div 365) \times (NT + TSH)$  and adding *TSH = The total number of spike elk harvested in the previous year in the unit or units within the management area or areas in which the private land is located.* The regulation has been updated to reflect the changes requested by the Commission. The Commission approved to move forward to take action at the May 2015 Commission meeting.
