MEMORANDUM

October 4, 2006

To: Volunteer

From: Water Development Program

Subject: Guzzler Maintenance Form

The volunteer program has proven to be beneficial for the construction and maintenance of water developments throughout the state. Enclosed is a form used to keep the guzzler data base current on maintenance. This data base informs us of what year the guzzler was last maintained and allows the guzzler to be monitored on a scheduled basis. Use this form when checking the guzzler for any repair and/or general evaluation. Even if the guzzler is in good condition, please note this on the form and submit (Winnemucca Field Office). Please report all maintenance done to unit or needed. If possible, please include a photograph of the guzzler and use UTM's (include datum info) for location information.

GUZZLER MAINTENANCE FORM

Unit Name/No: _____ Inspected by: _____

Type of Unit: Small Game 325 Small Game 750 Big Game Slickrock
Other: _____

Ownership: NDOW BLM USFWS USFS Other _____ :

Date: _____ Time: _____ Region: _____ County: _____

Mtn. Range, Valley, Area: _____

Location: TWN _____ RNG _____ SEC _____ 1/4 _____ 1/4 _____
