

Stash Your Food and Trash

**Allowing coyotes access to human food
and garbage is reckless and deadly.**

Coyotes primarily hunt rodents and rabbits for food, but will take advantage of whatever is available, including garbage, pet food, and domestic animals.

- Put garbage in tightly closed containers that cannot be tipped over.
- Remove sources of water, especially in dry climates.
- Bring pets in at night, and do not leave pet food outside.
- Put away bird feeders at night to avoid attracting rodents and other coyote prey.
- Provide secure enclosures for rabbits, poultry, etc.
- Pick up fallen fruit and cover compost piles.
- Ask your neighbors to follow these tips.

Please respect and protect wild animals.
Keep them wild.
