

# KEEP ME WILD™

## Mountain lions, black bears and other wildlife may be your neighbors here.

- Don't feed deer—you will attract mountain lions
- Deer-proof your landscaping
- Trim brush to reduce hiding places for mountain lions
- Don't leave small children or pets outside unattended
- Install motion-sensitive lighting around the house
- Provide secure shelters for sheep, goats, and other vulnerable animals

If you encounter a mountain lion do not run; instead, face the animal, make noise and try to appear as large as possible.

If attacked, fight back.

## You may be attracting mountain lions to your property without knowing it.

Pets, livestock and even people are potential prey to a mountain lion. Although mountain lions prefer deer, they may turn to alternate food sources if they're available. That's when conflicts occur.

### Keep them wild.

If in doubt about what to do, ask your local game warden, park ranger, or law enforcement officer.
