MEMORANDUM DECEMBER 29, 2022

To: Nevada Board of Wildlife Commissioners, County Advisory Boards to Manage

Wildlife, and Interested Publics

From: Mike Scott, Administrator, Game Division

Title: Commission Regulation 23-07, 2023-2024 Restricted Nonresident Guided

Mule Deer Seasons and Quota

Purpose: The Commission will review, revise, and adopt the 2023-2024 hunting season and

quota recommendations for restricted nonresident guided mule deer including hunt

boundary restrictions.

Summary

This regulation will set the 2023-2024 hunting season and quota recommendations for restricted nonresident guided mule deer including hunt boundary restrictions.

Brief Explanation of the Proposed Regulation

Quotas for restricted nonresident guided mule deer seasons are prescribed by Nevada Revised Statute 502.147. This statute dictates that the quota for the restricted nonresident guided hunt is subtracted from the total nonresident rifle (i.e., any legal weapon) quota, the total restricted nonresident guided quota must not exceed 16% of the total nonresident quota from the previous year, or 400 tags, and the number of restricted nonresident deer tags issued for any management area or hunt unit group must not exceed 37.5%, rounded to the nearest whole number, of the rifle deer tags issued to nonresidents during the previous year for that management area of hunt unit group. Additionally, restricted nonresident guided seasons are aligned with standard seasons to ensure seasons are concurrent.

The Department is presenting the seasons and quota to the Commission and requesting approval of this regulation. The Department and Commission have little latitude to make changes to this regulation as directed by statute after approval of standard seasons and quota. Quota for 2023-2024 are based on the number of tags issued to restricted nonresident guided and nonresident any legal weapon seasons the previous year.

Recommendation

The Department recommends that the Commission review and adopt the proposed regulation as presented.
