## MEMORANDUM

February 21, 2020

**To:** Nevada Board of Wildlife Commissioners, County Advisory Boards to Manage Wildlife, and Interested Publics

**From:** Russell Woolstenhulme, Staff Specialist, Game Division

**Title:** **Commission Regulation 20-10, Migratory Game Bird Seasons, Bag Limits, and Special Regulations for Waterfowl and Webless Migratory Game Birds; Public hunting limited on Wildlife Management Areas and Designated State Lands – 2020–2021 Season – For Possible Action**

**Description:** The Commission will consider recommendations for seasons, bag limits, and special regulations for migratory game birds for the 2020–2021 season and adopt regulations consistent with the proposed regulations framework for the 2020–2021 hunting seasons on certain migratory game birds established by the U.S. Fish and Wildlife Service. The Commission Regulation will become final pending adoption of federal frameworks. The Commission will also consider rules regulating public hunting on Wildlife Management Areas and designated state lands.

**Presenter:** Wildlife Staff Specialist Russell Woolstenhulme

### Summary:

Season regulations for hunting migratory waterfowl, doves, and crows differ from some other common species, like mule deer, that are not governed by the Migratory Bird Treaty Act. The U.S. Fish and Wildlife Service works with the states within designated flyways, and Nevada resides within the Pacific Flyway. Collectively, the Pacific Flyway develops regulatory sideboards known as the Federal Frameworks within which each state may promulgate seasons for hunting. Although the Federal Frameworks are generally established by the time the Commission acts on the Migratory Game Bird Commission Regulation, the federal government suffered delays this year and the proposed frameworks are still draft. Should the final approved frameworks require amendment to this CR, the Department will bring this CR back to the Commission before seasons are published.

The Department is recommending some changes to waterfowl and migratory bird seasons from those adopted by the Commission last year in March. Recommended seasons for the Northwest

Zone has been moved to an early start date (October 3 start) with a longer closed period mid-season. This will allow the season to remain open later into January. Additionally, Scaup limits allow for a daily bag limit of only 2 scaup.

*Continental and Flyway Conditions*

Continent-wide, waterfowl abundance is similar to last year. The total 2019 duck population estimate (excluding scoters, eiders, long-tailed ducks, mergansers, and wood ducks) is 38.9 million birds. This population estimate is 6% lower than the 2018 estimate of 41.2 million and is 10% higher than the long-term average. Mallards, gadwalls, widgeons, canvasbacks, redheads and green-winged teal are all above their long-term average. Greater and lesser scaup saw reductions from their long-term average abundance ( $3.6 \pm 0.2$  million vs.  $5.0 \pm 0.04$  million respectively). Federal Frameworks for most species fall into the liberal season category, although Scaup fall into the moderate season category.

Western Canada Geese numbers continue to increase and are currently over population objectives as are Pacific Greater White-fronted Geese and Western Canadian Arctic Snow Geese.

Most waterfowl from the Pacific Flyway nest north of Nevada. Nearly all U.S. prairies experienced average to above-average precipitation during the 2018-2019 winter. These weather patterns were reflected by increases in pond estimates throughout the prairie pothole region. Most prairie and parkland regions were excellent to good for waterfowl production. The boreal region and Alaska experienced below- to above-average precipitation in a northward direction. Most of the Canadian portion of the traditional area was rated as good this year.

The predicted abundance of mourning doves for September 2019 in the Western Management Unit were 49.3 million, which results in a standard regulatory alternative as prescribed by the harvest strategy.

*Nevada*

Breeding Bird Population Survey surveys for Nevada show an increase in ducks between recent years. Increases are associated with good to excellent marsh conditions state wide.

Breeding Bird Population Survey		
Year	Population	Number
2018	Ducks	90,900 ( $\pm 8,589$ )
2019	Ducks	119,600 ( $\pm 13,180$ )

*Habitat*

In Nevada, 2018-2019 winter precipitation and run-off was above normal, following near normal precipitation the previous year. Most wetlands in northern Nevada including the Carson Sink area (Stillwater National Wildlife Refuge, Carson Lake Wildlife Management Area) entered the breeding season with residual waters with many at or above normal levels. Reservoir storage for this area was at 100% of capacity. Northern Nevada Great Basin reservoirs and runoff were similarly near average. Marsh conditions survey wide were excellent, with many marshes that have been dry for decades, partially to completely filled.

As of February 13, 2020, year-to-date precipitation (Oct 1 – Feb 13) is looking moderate for Nevada. Lake Tahoe Basin precipitation was reported at 55% of normal, Walker River and Carson River Basins (including Lahontan Basin) were reported at 47% and 62% of normal respectively, and Eastern Nevada (Ruby Marshes) was reported at 74% of normal. Most Nevada marshes are at or near 100% full with residual water. Consequently, summer water flows to marshes should be adequate to maintain marsh coverage.

Recommendation:

The Department recommends that the Commission **VOTE TO APPROVE CR 20-10 MIGRATORY GAME BIRD SEASONS, BAG LIMITS, AND SPECIAL REGULATIONS FOR WATERFOWL AND WEBLESS MIGRATORY GAME BIRDS; PUBLIC HUNTING LIMITED ON WILDLIFE MANAGEMENT AREAS AND DESIGNATED STATE LANDS – 2020–2021 SEASON AS PRESENTED.**

# **PUBLIC HUNTING LIMITED ON WILDLIFE MANAGEMENT AREAS AND DESIGNATED STATE LANDS**

## **ALKALI LAKE WILDLIFE MANAGEMENT AREA (WMA), BRUNEAU RIVER WMA, FERNLEY WMA, FRANKLIN LAKE WMA, HUMBOLDT WMA, SCRIPPS WMA, STEPTOE VALLEY WMA and WAYNE E. KIRCH WMA**

1. Hunting is allowed every day for wildlife species upon which there is an established open season

### **MASON VALLEY WMA**

1. Before or after any waterfowl season, hunting is allowed every day for wildlife species upon which there is an established open season.
2. During any waterfowl season open within the hunt zone, hunting is permitted only on:
  - a) Saturdays, Sundays and Wednesdays,
  - b) the following legal State holidays: Nevada Day, Veterans Day, Thanksgiving, Family Day (day after Thanksgiving), Christmas, New Year's Day, and Martin Luther King Day,
  - c) the closing two days of any duck and goose season, and
  - d) during any youth waterfowl hunt.
  - e) Hunters with a valid turkey tag for the Mason Valley WMA may hunt each day of the established turkey season.

### **FT. CHURCHILL COOLING POND COOPERATIVE WMA**

1. The Ft. Churchill Cooperative Cooling Pond Wildlife Cooperative WMA is closed year-round to all hunting.
2. From October 1, through the Friday preceding the second Saturday of February, the area shall be closed to trespass.

### **OVERTON WMA**

1. Before or after any waterfowl season, hunting is allowed every day for wildlife species upon which there is an established season.
2. Waterfowl hunting is permitted on the Moapa Valley portion of the area on:
  - a) the opening day of the earliest opening waterfowl season,
  - b) even days thereafter through the end of regular duck and goose seasons,
  - c) the closing two days of any duck and goose season, and
  - d) during any youth waterfowl hunt.
3. Upland game bird and rabbit hunting is prohibited during the regular duck and goose seasons, except for persons possessing a valid wild turkey tag to hunt turkeys in the Moapa Valley of Clark County. These persons may hunt turkeys every day for which the tag is valid. These persons are prohibited from pursuing any other upland game birds or rabbits during such time that the fall turkey season is concurrent with the waterfowl season.
4. During the waterfowl season on the Moapa Valley portion of the area, hunters must hunt from assigned hunt locations (blinds) constructed by the Department of Wildlife. A maximum of up to four hunters are permitted at each hunt location. Assigned hunt locations are marked by numbered stakes. Hunters shall hunt only within their assigned hunt location and moving to vacant locations is prohibited. The only exception involves reasonable accommodation of the disabled.
5. During the opening day and the first weekend of the dove season, the maximum capacity for the Moapa Valley portion of the area is 60 hunters by reservation. Vacancies will be filled by stand-by hunters on a first-come, first-served basis.
6. On Overton Hunt days, only persons authorized to hunt waterfowl may use vessels on the portion of the area inundated by Lake Mead.

### **KEY PITTMAN WMA**

1. Before or after any waterfowl season, hunting is allowed every day for wildlife species upon which there is an established season.
2. Waterfowl hunting is permitted on:
  - a) the opening weekend of the earliest opening waterfowl season within the hunt zone,
  - b) odd-numbered days thereafter through the end of regular duck and goose seasons,
  - c) the closing two days of any duck or goose season, and
  - d) during any youth waterfowl hunt.
3. The maximum hunter capacity during the opening day of duck season and the opening day of goose season will be 55 at any time.
4. All hunters will check-in and out at the main entrance and will park in designated parking areas only. No vehicles are allowed on the area during the hunting season.
5. The area is closed to fishing during the waterfowl season.
6. No motorized boats are allowed on the area during the waterfowl season.

### **OVERTON-KEY PITTMAN HUNTER RESERVATION SYSTEM**

1. To guarantee an opportunity to hunt, reservations must be made for the following specified days of each hunt listed:

#### The Key Pittman WMA

- a) The earliest opening day of the general duck and goose seasons.

#### The Moapa Valley portion of the Overton WMA

- a) Opening day and the first weekend of the dove season.
- b) The entirety of any open waterfowl season.

Special Regulation for the Moapa Valley Portion of the Overton WMA: A person or their representative applying for reservations for group hunting will be limited to up to four hunters per party.

2. Dove Reservation Process:

Hunters wishing to make reservations for opening day and the first weekend of the dove season at the Overton WMA will do so via an application process detailed on the NDOW web site at [www.ndow.org](http://www.ndow.org). Unless their privilege is limited or revoked pursuant to law, any resident or nonresident is eligible to have their name included on one application for each hunt day for which reservations are required. A person whose name appears on more than one application for each hunt day for which reservations are required will be rejected from the drawing. Hunters will be permitted to draw only one reservation during this mail-in application process unless there are less than 60 applicants on a day for which reservations are required. Applications for the dove hunt at the Overton WMA shall be received at the Headquarters Office in Reno (through a postal service only) no later than the second Wednesday in July. A public drawing will be held at the Headquarters Office in Reno at 10:00 a.m. on the last Wednesday in July. Successful applicants will receive a reservation confirmation by return mail. Successful reservation holders will be allowed to substitute one person of a hunt party but that substitute must not have been included in an application of the mail-in process or part of a stand-by group.

3. Waterfowl Opening Day/Weekend Reservation Process:

Hunters wishing to make reservations for the first two hunt days of the earliest opening duck and goose seasons at the Overton WMA and the opening day of the duck and goose seasons at the Key Pittman WMA will do so via an application process detailed on the NDOW web site at [www.ndow.org](http://www.ndow.org). Unless their privilege is limited or revoked pursuant to law, any resident or nonresident is eligible to have their name included on one application for each hunt day for which reservations are required. A person whose name appears on more than one application for each hunt day for which reservations are required will be rejected from the drawing. For the Overton WMA, hunters will be permitted to draw only one reservation through the mail-in application process unless there are available blinds on a day for which mail-in reservations are required. Applications for these waterfowl hunt days shall be received

at the Headquarters Office in Reno (through a postal service only) no later than the second Wednesday in September. A public drawing will be held at the Headquarters Office in Reno at 10:00 a.m. on the last Wednesday in September. Successful applicants will receive a reservation confirmation by return mail. Successful reservation holders will be allowed to substitute one person of a hunt party but that substitute must not have been included in an application of the mail-in process or part of a stand-by group.

4. Waterfowl Remainder of Season Reservation Process:

Reservations for the remainder of the waterfowl hunting season at the Overton WMA will be available the Monday prior to the opening of the waterfowl season and can be made by calling 1-855-542-6369 Monday through Friday 8:00 AM – 4:30 PM pacific time. Hunters that are successful during the mail-in application process for the first two hunt days must use those reservations before making reservations for the remainder of the season. An individual may reserve no more than one assigned hunt location on the Moapa Valley portion of the area for no more than four individuals to hunt as a party and this reservation must be utilized prior to reserving another hunt day. The reservations must be in the hunter's possession and be shown to the check station attendant to constitute a valid reservation for the day specified. At the Key Pittman WMA, reservations for hunting will be required only on the earliest opening day of the regular duck season and goose seasons. All hunters will check in at the main entrance on the opening day of waterfowl season. For the remainder of the waterfowl season, hunters will complete a reservation card obtained from the Frenchy Lake or Nesbitt Lake check station box and deposit the card in an appropriate drop box for each day hunted. Failure to turn in a completed card at the Key Pittman WMA or failure to check out at the Overton WMA may result in a citation being issued, and the loss of hunting privileges for the remainder of the season. No vehicles are allowed on the areas during the hunting season.

5. During the waterfowl season at the Overton WMA, an assigned hunt location program will be in effect. Hunters will make a reservation for one of three types of hunt locations (field, pond or bulrush plot) and the specific hunt location will be determined by a drawing at the check station prior to each day's hunt. NDOW reserves the right to adjust blind availability and blind assignments based on the conditions present on the day of the hunt.
6. A hunter with a reservation will be considered as a "no-show" if they do not present themselves at the check station by one full hour before shooting time, except that at the Overton WMA, a hunter with a reservation will be considered a "no-show" if they do not present themselves at the checking station one and one-half hours before shooting time during the waterfowl season.
7. Standby hunters must register at the check station upon arrival.
8. All reservations, permits and assigned hunting locations are nontransferable.
