

Species: Antelope

Unit Group: 202 204

Hunt Geometry ID: 78

Hunt ID: [642, 8375984, 727]

Access:

There are several paved highways and improved all weather graded, graveled roads within the area. From these main routes, a large network of roads and trails permeate the unit group. Many of these roads are rough and challenging, so carry the necessary tools, and use caution.

Recommended Hunting Areas:

The Walker-Mono Interstate antelope herd occupies the higher elevations of the Bodie Hills in the summertime. This population migrates from the higher elevations and winters on the western slope of the Wassuk Range. Areas recommended for hunting include the lower portion of Baldwin Canyon, Rough Creek, Aldridge Grade, Nine Mile and Rough Creek.
