NAC 503.1485 Use of trail camera or similar device: Restrictions; exceptions. ([NRS 501.105](#), [501.181](#))

1. Except as otherwise provided in subsection 2, a person shall not place, maintain or use a trail camera or similar device:

(a) Except as otherwise provided in paragraph (b), at any time during the period beginning August 1 and ending December 31 of each year.

(b) At any time during the period beginning July 1 and ending December 31 of each year if the trail camera or similar device transmits, or is capable of transmitting, images, video or location data of wildlife.

(c) At any time if the placement, maintenance or use of the trail camera or similar device prevents wildlife from accessing, or alters the manner in which wildlife accesses, a spring, water source or artificial basin which is used by wildlife and collects, or is designed and constructed to collect, water.

2. The provisions of subsection 1 do not apply to:

(a) A person who is acting within the scope of his or her official duties, has clearly marked each trail camera or similar device to be used to indicate ownership and is:

(1) An employee or authorized agent of this State;

(2) An employee or authorized agent of a municipal or county government of this State; or

(3) An employee or authorized agent of the Federal Government.

(b) A person who places, maintains or uses the trail camera or similar device with approval from the Department.

(c) A person who places, maintains, or uses a trail camera or similar device on private property with the permission of the landowner.

(d) A person who places, maintains or uses a trail camera or similar device to monitor the use by livestock of any water source described in paragraph (c) of subsection 1 if the owner of the trail camera or similar device is the holder of a permit to appropriate water issued by the State Engineer for the purpose of watering livestock.

3. As used in this section, "trail camera or similar device" means any device which is not held or manually operated by a person and is used to capture images, video or location data of wildlife using heat or motion to trigger the device.
