

Churchill County Advisory Board to Manage Wildlife Recommendations for The Wildlife Commission Meeting September 25, 2020

- 1) Agenda Item 6 A. Commission Regulation 20 -01, Amendment #1, Fishing Seasons and Regulations for January 1, 2020 through December 31, 2021.

The Churchill County Advisory Board unanimously supported all changes recommended by the Department.

- 2) Agenda Item 8. A, Commission General Regulation 494 NAC 501.

The CCAB voted to support recommended wordage changes as submitted.

Agenda Item 8.B, Commission General Regulation 495 NAC 502.

The CCAB voted to support recommended wordage changes to NAC502 except for portions of NAC 502.370:

NAC 502.370, Section 4, Subsection (e). the CCAB voted unanimously that Subsection E should be eliminated completely as all listed illegal methods are already covered by other general regulations. These new listed unlawful methods are already unlawful under the existing definition of legal "hunt" or "take" methods. Example: It is unlawful to possess a Mountain Lion unless a valid tag is attached – live lion must have a tag attached, Impossible.

The CCAB feels that the Commission's policy historically, for all huntable species, is to list "legal" methods of "take" not list every possible illegal method.
