

HUMBOLDT COUNTY ADVISORY BOARD TO MANAGE WILDLIFE

March 13th, 2020

Action Item #9: Motion to **OPPOSE** Mr. Zenz' Petition.

His facts and data are not complete.

There is a factor called "point creep" where the number of max "point" holders entering into the max "point" category each year far outweigh the number of tags allocated/drawn. This results in making it even harder to draw a tag.

It would be unjust to change the system after all of these years. Much thought and many, many hours of discussion were put into adopting the current system. With the current system **EVERY** applicant has a chance to draw a tag.

Action Item #16: Motion to Keep the Bighorn Indoctrination Course **Voluntary**.
