# 2022 NEVADA TROPHY FISH PROGRAM

Welcome to the 54th edition of the Nevada Department of Wildlife's Trophy Fish Book, a product of the Trophy Fish Program which was initiated in 1968 to recognize the talents, or luck, of anglers for catching notable-sized fish from many of the over 800 waterbodies throughout the state. This program recognizes anglers for catching "trophy" sized fish in any of 30 different fish species, each having a designated minimum weight for entry.

Congratulations go out to the 32 anglers that entered 82 fish into the Trophy Fish Program in 2022. It is not always easy catching a fish that meets the minimum weight requirement of a trophy fish, and in 2022, 71 of the fish entered met the minimum weight, including 22 Common Carp, 20 Lahontan Cutthroat Trout and 12 Rainbow Trout. The remaining 39 fish were a mix of 10 different species including Largemouth, Smallmouth, Channel Catfish, Sacramento Perch, Yellow Perch, Brook Trout, Brown Trout, Tiger Trout, Mountain Whitefish and Wiper. You will also see throughout this book that 19 additional records were set at waters previously having no established records for an approved species of fish. So, remember, you can still enter an undersized fish as long as there is no previous record from that water or the weight beats the current record.

Although no official state records were broken this year, the table below portrays new water records for catches

that met the minimum weight qualifications.

Walter Ricci beat his own Lake Mead water record for Carp set in 2021 by more than 4 pounds. Special recognition goes out to Eric McBride who caught a 20lb. 4 oz. Tiger Trout at Ruby Lake National Wildlife Refuge. This monster of a fish would have shattered the official state record, but Eric chose to let that fish fight another day and released it. Eric now holds the "unofficial" state record for Tiger Trout.

Finally, six anglers completed the Native Fish Slam, making Cody McLean, Mark Bryan Jackson, Michael Lopez, Mike Gibbons, Mike Sevon and Stephen MacMillan the 25th through the 30th anglers to complete the challenge since the program started in 2012. The Slam consists of catching and entering the six native sport fish found in Nevada – Lahontan, Bonneville, and Yellowstone Cutthroat Trout, Redband Trout, Bull Trout, and Mountain Whitefish. There are still about 130 other anglers currently working to complete the slam and, of course, there is no time limit, so take your time and enjoy exploring Nevada's backcountry in pursuit of its native trout!

The following pages describe current and historical trophy fish caught from Nevada's waters. We hope the great success that anglers found last year will inspire you to head out and enjoy the great fishing Nevada has to offer.

**NOTE:** These records are officially recognized by the Nevada Department of Wildlife as state records established from the year 1968, the first year of the Nevada Trophy Fish Program through December 2022. These records include fish taken in interstate waters including Lake Tahoe, Topaz Lake, Lake Mead, Lake Mohave and the Colorado River. It is recognized that some species of fish of larger size have been caught from Nevada waters prior to 1968.

World Record data was obtained from the International Game Fish Association's World Record Game Fishes 2022 edition.

**\*NOTE:** The recognized world record Cutthroat Trout of 41 pounds was caught from Pyramid Lake in 1925.
