A REGULATION relating to wildlife; setting forth the requirements for possessing a golden eagle in this State, obtaining an eagle permit and using a golden eagle in the practice of falconry; establishing a civil penalty; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Existing law authorizes a person who is licensed as a master falconer and who meets certain federal conditions to possess a golden eagle that is obtained from the wild if the golden eagle: (1) is obtained for rehabilitation purposes; (2) is legally obtained in another state; (3) is legally possessed by a master falconer in another state and that master falconer moves to this State; or (4) is transferred to the master falconer from another falconer in a manner authorized by regulations adopted by the Board of Wildlife Commissioners. Existing law authorizes the Commission to adopt regulations that authorize such a person to transport, transfer, possess or use a golden eagle in falconry. If such transportation, transfer, possession or use in falconry is authorized, existing law further requires a person who possesses a golden eagle to obtain an eagle permit. An eagle permit: (1) is deemed to be a permit to possess a golden eagle for the purposes of certain provisions of federal law; and (2) authorizes the holder to lawfully transport, transfer, possess or use a golden eagle in falconry in the manner set forth in the eagle permit. (50 C.F.R. § 22.70, NRS 503.610)

**Section 3** of this regulation prohibits, with certain exceptions, a person from possessing or using a golden eagle in falconry unless the person: (1) has a valid master falconry license, an eagle permit and a valid hunting license; and (2) if the person rehabilitates a golden eagle, has a valid permit to do so or is assisting a person who has such a permit. **Section 3** further: (1) authorizes, under certain circumstances, a person who is not a resident of this State to use a golden eagle in the practice of falconry in this State; and (2) requires certain persons who move to this State with the intent to make this State their permanent residence to obtain a master falconry license and an eagle permit not later than 30 days after becoming a resident.

**Section 13** of this regulation makes a conforming change to create an exception to the requirement that a person who moves to this State obtain a falconry license from the Department of Wildlife not more than 30 days after becoming a resident.

**Section 17** of this regulation makes a conforming change to make an exception to the prohibition on the taking, transportation, possession or use of golden eagles in the practice of falconry.

**Section 2** of this regulation defines the term “eagle permit.”

**Section 4** of this regulation sets forth the requirements for an application for and the renewal of an eagle permit.

**Section 5** of this regulation sets forth the requirements for a person who is not a resident of this State to obtain authorization to use a golden eagle in the practice of falconry in this State.

**Section 6** of this regulation requires a master falconry licensee with an eagle permit to ensure that any golden eagle in his or her possession is in good condition.

Existing regulations set forth various requirements for each facility that houses a raptor. (NAC 503.375-503.395) **Section 7** of this regulation: (1) provides that such requirements apply to a golden eagle; and (2) requires a master falconry licensee who has an eagle permit to ensure that each facility that houses a golden eagle contains a certain amount of space for the golden eagle. **Section 12** of this regulation makes a conforming change to indicate the proper placement of **section 7** in the Nevada Administrative Code.

**Section 8** of this regulation: (1) prohibits, with certain exceptions, a master falconry licensee from possessing a golden eagle for rehabilitation for more than 2 years after the date on which the master falconry licensee receives the golden eagle for rehabilitation; and (2) sets forth certain requirements for releasing a golden eagle from rehabilitation.

**Section 9** of this regulation authorizes the Department to suspend, revoke or deny the issuance or renewal of an eagle permit under certain circumstances.

**Section 10** of this regulation requires the Department to impose a civil penalty of \$1,000 against any person, firm, company, corporation or association who unlawfully kills, destroys, wounds, traps, injures, possesses dead or alive, or in any other manner catches, captures, takes or removes from the wild, or to pursue with such intent, the birds known as the bald eagle and the golden eagle, or takes or removes from the wild, injures, possesses or destroys the nests, eggs or newly hatched offspring of such birds.

**Section 11** of this regulation amends the definition of the term “raptor” so that it includes a golden eagle and so that the various regulations relating to raptors apply to golden eagles.

Existing regulations set forth certain conditions for retaining raptor feathers that are molted or are from raptors held in captivity that die and provides that such feathers may be retained and exchanged for imping purposes only. (NAC 503.205) **Section 12** provides that a master falconry licensee who has an eagle permit may only possess primary wing feathers and not more than 12 tail feathers of a golden eagle for imping purposes.

Existing regulations authorize the Department to deny the issuance or renewal of any class of falconry license or permit if the applicant has been convicted of a violation of the provisions of the Nevada Administrative Code relating to raptors. (NAC 503.235) **Section 14** of this regulation clarifies that such provisions include **sections 2-10** of this regulation.

Existing regulations prohibit a master falconry licensee from possessing more than five raptors. (NAC 503.250) **Section 15** of this regulation prohibits, with certain exceptions, a master falconry licensee from possessing more than two golden eagles.

Existing regulations require a person holding a falconry license to allow the Department’s employees to enter his or her premises at any reasonable hour to conduct certain inspections related to raptors, including the facilities that house raptors. (NAC 503.260) **Section 16** of this regulation clarifies that this provision also applies to facilities that house golden eagles.

**Section 18** of this regulation clarifies that the provisions of the Nevada Administrative Code that require each raptor to be housed in humane and healthful conditions also apply to golden eagles.

Existing regulations provide that the owner of a raptor that dies may: (1) keep or donate the feathers; (2) donate the body of the raptor to certain persons; (3) under certain circumstances, have the raptor mounted by a taxidermist; or (4) dispose of the body and feathers of the raptor. (NAC 503.460) **Section 19** of this regulation provides that if a golden eagle in the possession of a master falconry licensee dies, the licensee is required to surrender the body and feathers of the golden eagle to the Department not later than 5 business days after the discovery of the death.

Existing regulations provide that the provisions of the Nevada Administrative Code related to raptors must not be construed to exempt any person from the provisions of federal law relating to raptors or falconry. (NAC 503.470) **Section 20** of this regulation clarifies that this requirement also applies to the provisions of **sections 2-10**.
